What is ARU Peterborough?

ARU Peterborough is a brand new university being built in the city centre, and will be welcoming its first students in September 2022.

The courses offered will be high quality, employment focused and designed to meet the needs of the region's employers and students.

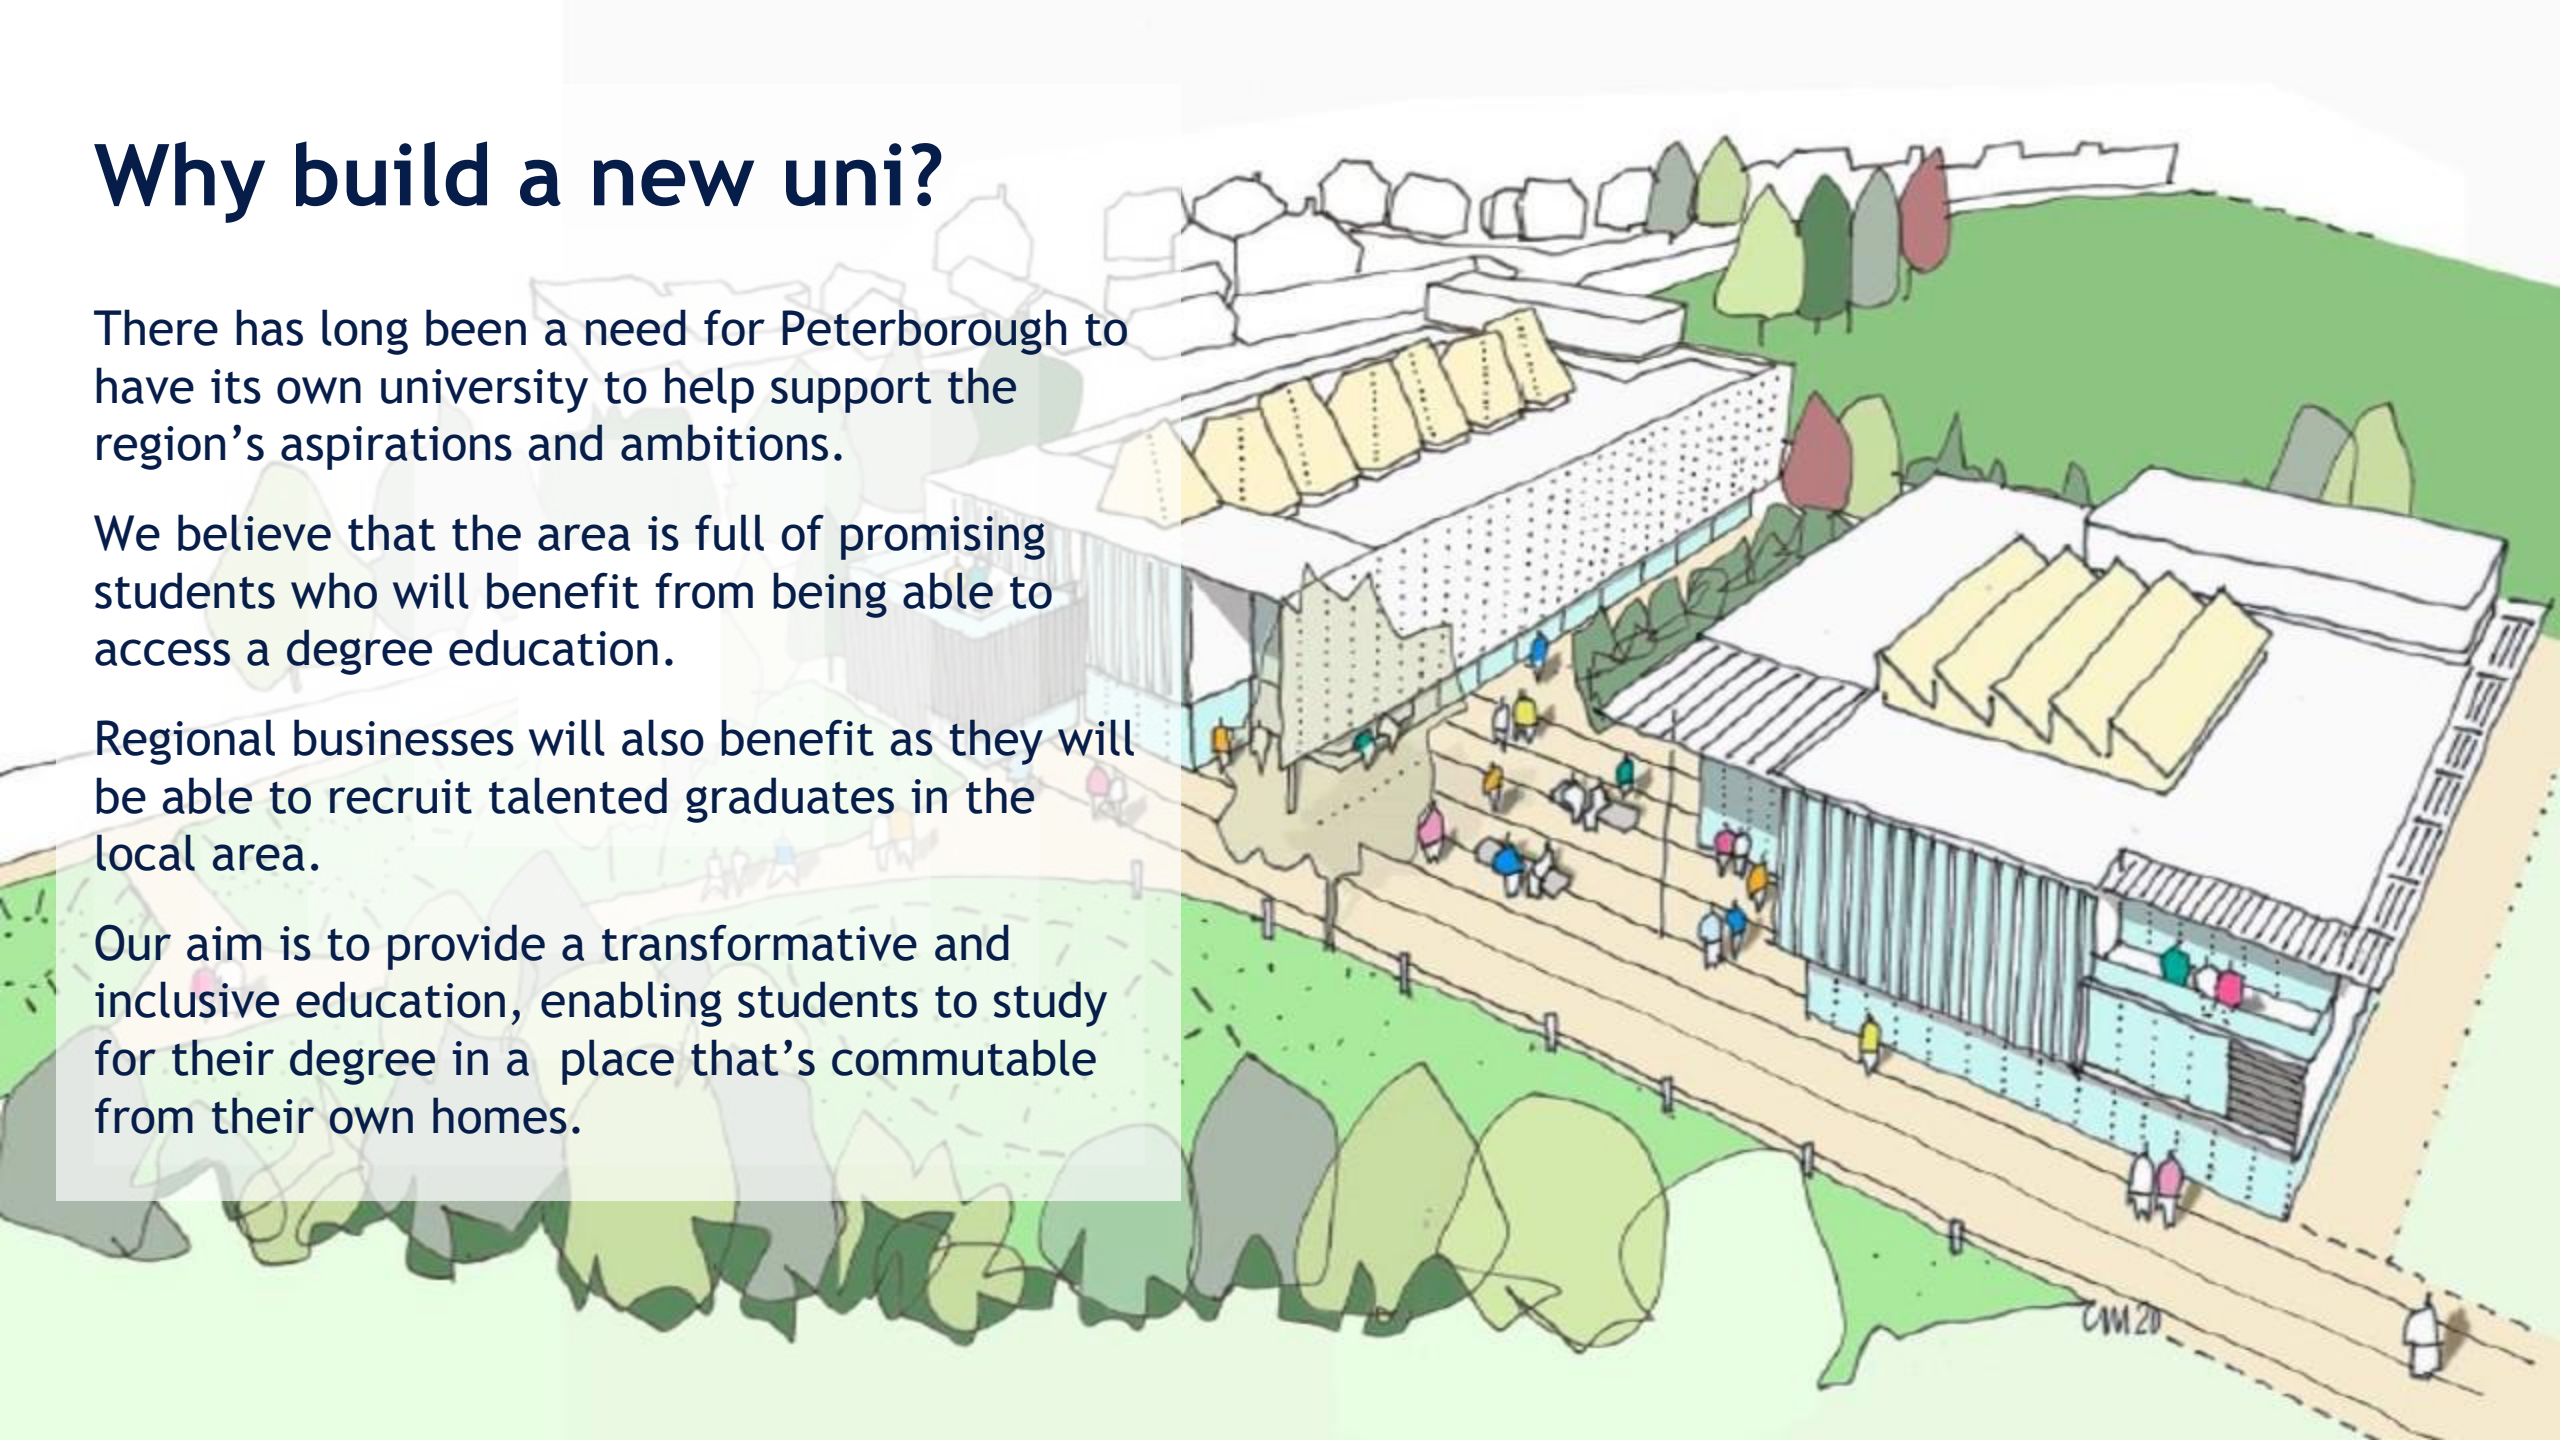

Why build a new uni?

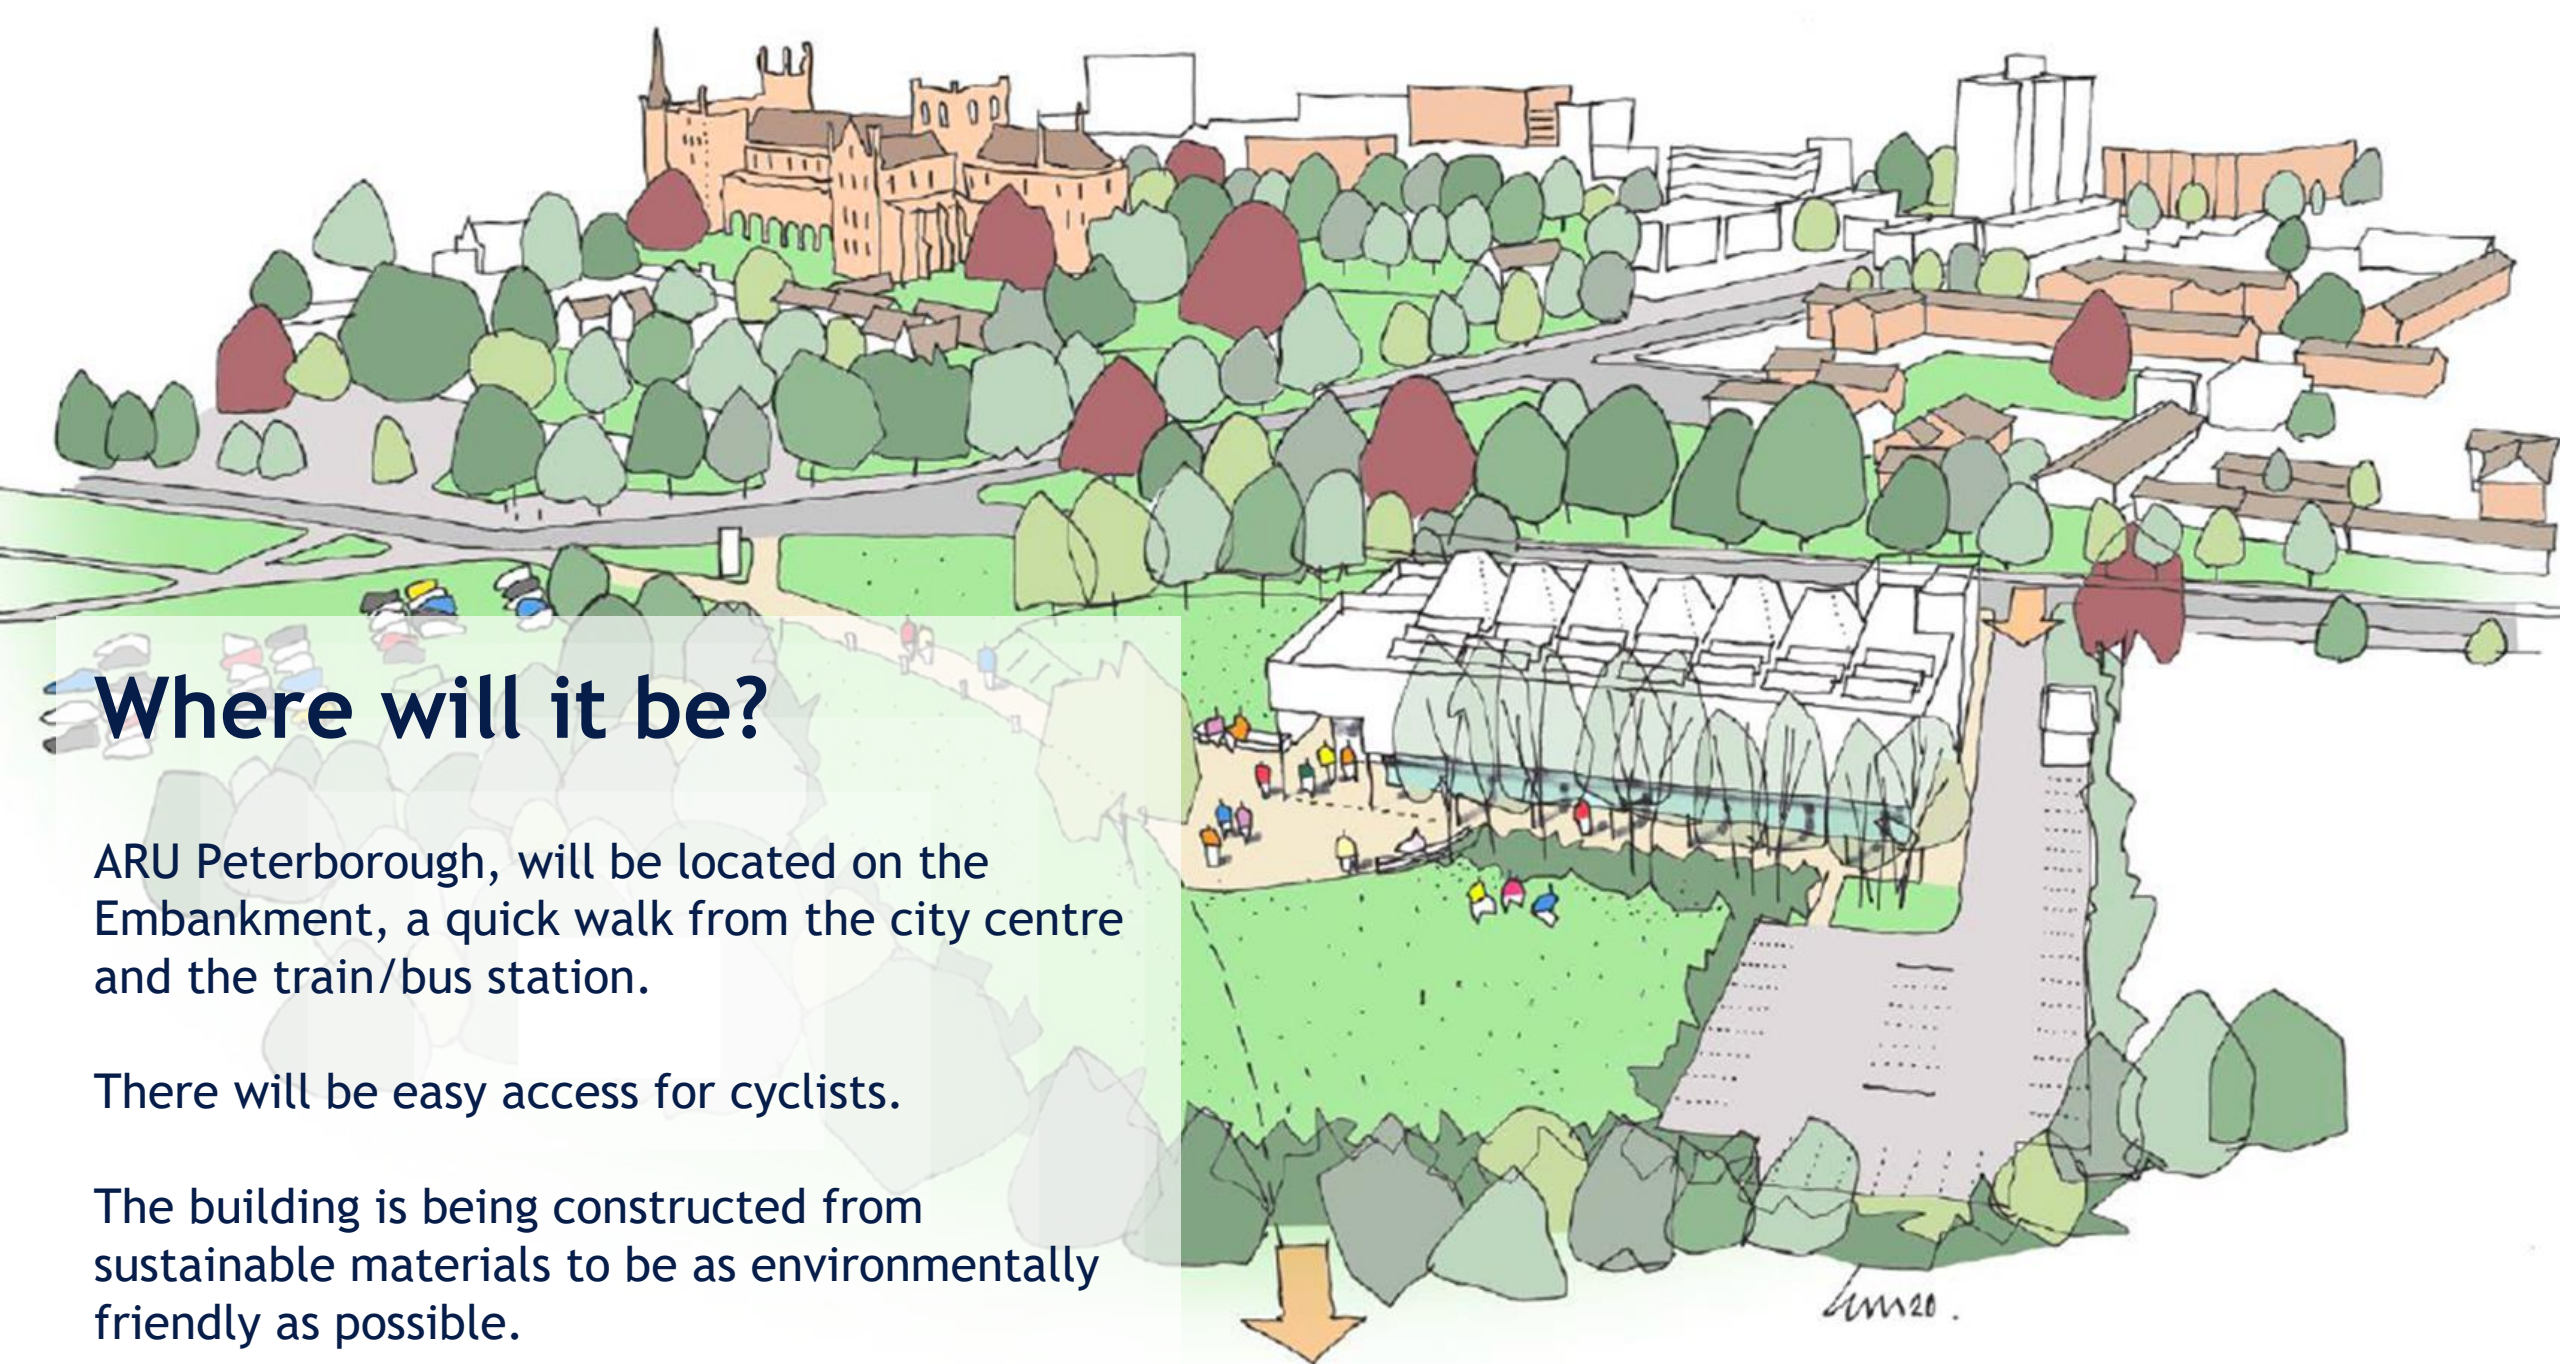

There has long been a need for Peterborough to have its own university to help support the region's aspirations and ambitions.

We believe that the area is full of promising students who will benefit from being able to access a degree education.

Regional businesses will also benefit as they will be able to recruit talented graduates in the local area.

Our aim is to provide a transformative and inclusive education, enabling students to study for their degree in a place that's commutable from their own homes.

Where will it be?

ARU Peterborough, will be located on the Embankment, a quick walk from the city centre and the train/bus station.

There will be easy access for cyclists.

The building is being constructed from sustainable materials to be as environmentally friendly as possible.

What facilities will ARU Peterborough have?

There will be many facilities and services to support students including:

- ✓ Superlab
- ✓ Specialised skills labs
- ✓ Computer and study rooms
- ✓ Prayer room and multi-faith room
- ✓ Student advice and guidance centre
- ✓ Library
- ✓ Café

It will be a vibrant and friendly place to study.

What is the ARU Peterborough advantage?

Employability

- 'Employability' means, the skills and attributes that enable you to be employed.
- We design our courses with a focus on your employability

How do we do this?

- ✓ By working with employers to co-create our courses to ensure skills align to their needs.
- ✓ By providing a free service that offers students careers advice and practical guidance such as C.V. prep and interview practice
- ✓ By integrating the 'ARU Graduate Capitals' into courses. These are attributes that we help our students develop on top of their degree qualification, to give them confidence and get them career-ready
- ✓ By enabling our graduates to be 'life-long learners'.... Ready to take advantage of new opportunities in the jobs of the future

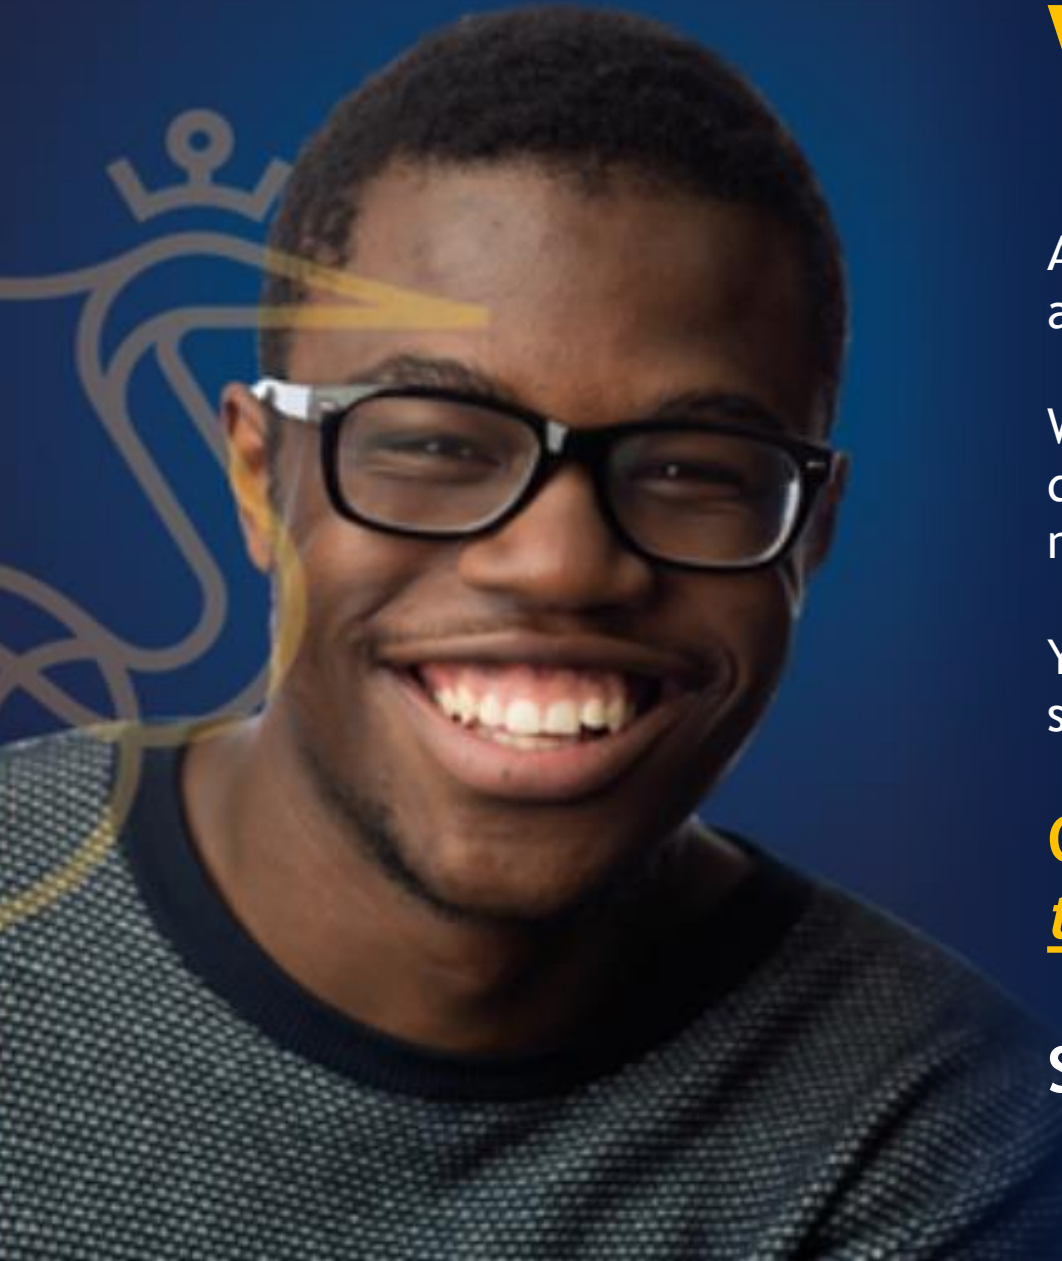

What is the ARU Peterborough advantage?

Student experience

- Student experience refers to everything available to support you through your degree.
- We're designing our support offering specifically to meet the needs of future ARU Peterborough students.

How do we do this?

- ✓ By listening to our current students and seeking input from future students
- ✓ By offering a free support service that includes help with things like study skills, wellbeing, managing your money and confidential counselling.
- ✓ By providing our 'Personal Development Tutor' programme, whereby you'll have dedicated support from a tutor, guiding you through your degree, helping you with any problems you have.
- ✓ By offering support programmes to students who speak English as a second language.

What courses are on offer?

ARU Peterborough will offer degrees and degree apprenticeships in a range of subjects areas.

We've worked with over 90 regional businesses to co-create our degrees, to ensure that our courses align to the skills employers need and value.

You'll learn in ways and in settings that mirror real working life, such as team-based projects, and live briefs.

Our degree courses will be open for applications this September.

Start your studies in September 2022

What is a degree apprenticeship?

It's the opportunity to study for your degree whilst in paid employment. For example, you could be spending three days at work and two days studying for your degree on campus.

ARU has expertise and experience as one of the UK's leading Degree Apprenticeship providers.

We're developing a portfolio of degree apprenticeships, which will be available for applications from January 2022
