

Freedom of Information

The King's (The Cathedral) School Publication Scheme on information available under the Freedom of Information Act 2000.

The Trust of The King's (The Cathedral) School is responsible for maintenance of this scheme.

1. Introduction: What a Publication Scheme is and why it has been developed

One of the aims of the Freedom of Information Act 2000 is that public authorities, including schools, should be clear and proactive about the information they will make public.

To do this, The King's School must produce a publication scheme, setting out:

- The classes of information which we publish or intend to publish;
- The manner in which the information will be published; and
- Whether the information is available free of charge or on payment.

The scheme covers information already published and information which is to be published in the future. All information in our publication scheme is either available for you on our website to download and print off, or available in paper form.

Some information which we hold may not be made public, for example personal information.

This Publication Scheme conforms to the model scheme for schools approved by the Information Commissioner.

2. Aims and Objectives

The School aims to:

- Recognise and value the contribution of every member of the school community;
- Maintain the tradition of achievement and academic excellence to the best of each individual's ability;
- Foster a community in which good mutual communications are promoted and in which, through pastoral care, all students achieve self-esteem and an appreciation of others, with a sense of responsibility for their environment;
- Provide a broad range of extra-curricular activities that give opportunities for all to develop individual interests and skills;
- Encourage a happy, well-motivated staff to work effectively and successfully through good leadership, efficient structures and provision of resources.

The basis for these values is the Christian ethos of the School.

This Publication Scheme is a means of showing how we are pursuing these aims.

3. Classes of Information published

The Publication Scheme guides you to information which we currently publish (or have recently published) or which we will publish in the future. This is split into categories of information known as 'classes'. These are contained in section 6 of this scheme.

The classes of information that we undertake to make available are organised into the following seven broad topic areas:

- Organisational information - what we are and what we do
- Financial information - what we spend and how we spend it
- Strategies and plans - what our priorities are and how we are doing
- Decision-making processes - how we make decisions
- Policies and procedures
- Lists and registers
- Services we offer
