

Candidate Mobile Phones / Watches

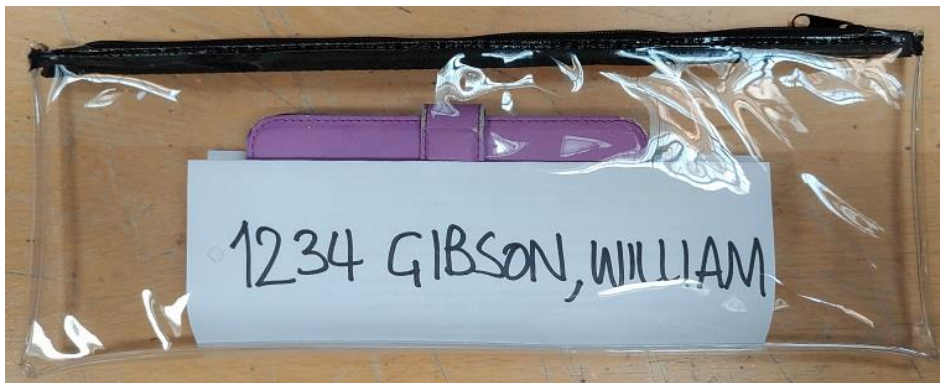

Candidates are **not** allowed mobile phones / smart watches / MP3/4 players in any exam room. If a candidate does choose to bring these items to school during the exams, they must be left away from the exam room, at their own risk.

We will accept such items if they are presented in a sealed, clearly labelled, clear pencil case – see examples below. This must be given to us well in advance of any exam.

We will not accept anything not stored and labelled in this way – you will have to put your phone or watch anywhere except the examination room. Any phones handed in must be switched off.

It is important to note that in public examinations, if a candidate is found to have a mobile phone or watch on their person (even if they did not use it) this will lead to the candidate losing all marks for that examination.
