

21 March 2024

Dear Parents & Carers,

Last week saw the JD pupils tackling the Cavepod. We were very impressed to see how well everyone threw themselves into the challenge, and it is this kind of challenge that helps children explore and develop their inner grit and determination. Physically it was a fascinating challenge that allowed pupils who don't always excel in sports, to be exceptional in the cave crawling. Most pupils really enjoyed it - well done all.

Non-Uniform Day - Friday 22 March

Pupils are welcome to pay £2 to the main School Charities in order to come to School in 'non-uniform' on Friday. Please can JD2 pupils be aware that on Friday we will be using clay for modelling, hence may wish to choose clothing accordingly.

Unfortunately, the Hockey tournament scheduled for Years 3 and 4 on 21 March will not be taking place, it will be a normal School day.

Packed Lunch Needed - Tuesday 26 March

Packed lunch will be needed on 26 March due to the timing of the Cathedral Service.

JD EGGS FACTOR - Wednesday 27 March

We would like each child to use a normal hen's egg (can be hard boiled, blown or fresh) and to draw/paint/stick on details to make the egg look like a famous person. Your child should then make a name label with the famous character's name and their own name on. It's all for fun as part of our Easter celebrations.

Yours faithfully,

Mr D Ludford
Head of Junior Department

JD2 GET MUDDY!

On Friday 15th of March, JD2 went on a hiking trip from Market Deeping to Glington.

When JD2 arrived, the teachers ensured that they had the essential items they needed like: a plastic bag, sturdy footwear and their water bottle and lunch.

They arrived in Market Deeping and set off through the fields, they soon were glad they had sturdy footwear, as some people were slipping into the squelchy mud. As they went along, they saw: deer foot prints, horse tracks, a flying heron, badger holes and a mother

swan being very protective of her young.

They had lots of fun, they collected sticks and stopped for a break at a park in Maxey, they stopped at the tunnels and everyone got out their moon balls or just bouncy balls, and then they had their lunch at Nine Bridges.

It was fun to get muddy and we all had a great time, it was a wonderful

JD go caving!

On Wednesday the 13th of March, the whole of JD got to experience what it's like to go caving.

A cave pod was parked on the yard and throughout the

day groups of approximately 10 pupils took turns experiencing the twists and turns and darkness of the cave pod. It was quite a tight squeeze in

places but everyone managed to crawl through it at least once.

Sasha from JD1 said, "It was quite narrow and dark when you didn't

have a torch, it was fun with torches but quite scary without them!"
